2021 ANNUAL REPORT

669 PATIENTS AT VOLUNTEERS IN MEDICINE

Last year, Volunteers in Medicine worked together with 669 patients, **44 volunteers** and numerous community partners to affirm God-given value and multiply possibilities. Staff & volunteers provided quality medical and dental care at no cost to local uninsured patients at **5,600 appointments (4,745 medical and 855 dental)**. Together we are greater than disease, diagnosis and circumstance.

In the fall, VIM expanded services by adding behavioral health appointments and increasing dental capacity with the addition of a part-time dentist.

461 STUDENTS AT KIDS CLUB

Kids Club invests in students all year long. In 2021, the **school year program served 344 kids** while the **summer camp served 185 children**. Many kids enjoyed both programs.

The school-year program partnered with **13 local elementary schools, 123 volunteers**, families and community partners to affirm God-given value and multiply possibilities together. **Each week, 214 kids grew academically, expanded life skills and developed Godly character.**

The new summer camp program was launched in June and provided an affordable day camp experience, full of fun, adventure, and spiritual & academic growth for **68 kids each week.**

Multiplying Possibilities Together

"They're great at showing the kids love."

Naomi Hernandez's 3 daughters enjoyed 2 weeks of Kids Club Camp. She says, "I love that they are engaging every part of them. I want my kids learning as much as they can, and it takes a village. Everyone at Kids Club is listening. They're great at showing the kids love."

"People here really care."

Gardenia Rivera, a VIM patient since 2016, says, "It's been a big help and a blessing in my life." She is grateful to have this resource available to help with health issues and anxiety. Gardenia says, "It definitely relieves a lot of anxiety knowing I have somewhere I can go. The people here really care."
